Career Objective

Entry-Level Full-Stack Web Developer with experience building responsive web applications and writing maintainable code. Familiar with the frontend, backend, databases, and APIs. Work with requirements, build features, and debug applications during development.

Education

B.Tech in Information Technology 2023 - Present
Hindusthan College of Engineering and Technology
CGPA upto 5th semester 8.75

HSC, Class XII 2023
Govt Hr.Sec.School
Percentage: 80.33

SSC, Class X 2021
Bethany Navajeevan Matric Hr Sec School
Percentage:Passed

Technical Skills

- **Languages:** Java, JavaScript
- **Frontend:** React.js, HTML,CSS, Tailwind CSS
- **Backend:** Node.js, Express.js
- **Ui Libraries:**Daisy Ui
- **Databases:** MySQL
- **Tools:** Git, GitHub, Postman, Figma,
- **OS:** Windows

Projects

Expense Tracker | *React, Express, MySQL*

- Developed a full-stack expense tracking application to manage and categorize daily financial transactions.
- Built a responsive frontend using React with dynamic state management and real-time data updates.
- Designed RESTful APIs using Express.js for handling CRUD operations on expenses and user data.
- Integrated MySQL database for secure storage and efficient querying of transaction records.
- Implemented features like expense categorization, total balance calculation, and interactive UI dashboards.

Sticky Notes App | *React.js, CSS*

- Developed a responsive sticky notes web application enabling users to create, edit, and delete notes in real time.
- Architected modular React components to improve scalability, maintainability, and code reusability.
- Optimized application performance using efficient state management with React Hooks.
- Enhanced user experience through a clean UI and design for desktop devices.

Certifications

- NPTEL Certification in Cyber Security.

Achievements

- Solved 150+ Data Structures and Algorithms problems on LeetCode.
- Consistently practice problem-solving to strengthen algorithmic thinking.
