Career Objective

Entry-Level Full-Stack Web Developer with experience building responsive web applications and writing maintainable code. Familiar with frontend, backend, databases, and APIs. Skilled in translating requirements into scalable features and debugging complex applications.

Education

Hindusthan College of Engineering and Technology

B.Tech in Information Technology

2023 – Present

CGPA: 8.75 (upto 5th Sem)

Govt Hr.Sec.School

HSC, Class XII

2023

Percentage: 80.33%

Bethany Navajeevan Matric Hr Sec School

SSC, Class X

2021

Result: Passed

Technical Skills

Languages: Java, JavaScript, TypeScript
Frontend: React.js, HTML, CSS, Tailwind CSS, Daisy UI
Backend/DB: Node.js, Express.js, MySQL, MongoDB
Tools: Git, GitHub, Postman, Figma, Alacritty, Windows

Projects

Canvaso – Digital Whiteboard | *React, HTML5 Canvas*

- Engineered a high-performance digital whiteboard allowing users to draw, annotate, and design in real-time.
- Leveraged the **HTML5 Canvas API** for smooth rendering of freehand drawing and geometric shapes.
- Implemented custom tools for stroke thickness, color selection, and an eraser functionality for precise control.
- Integrated a "Download as Image" feature, enabling users to export their work directly to local storage.

Expense Tracker | *React, Express, MySQL*

- Developed a full-stack expense tracking application to manage and categorize daily financial transactions.
- Built a responsive frontend using React with dynamic state management and real-time data updates.
- Designed RESTful APIs using Express.js for handling CRUD operations on expenses and user data.
- Integrated MySQL database for secure storage and efficient querying of transaction records.

Sticky Notes App | *React.js, CSS*

- Developed a responsive sticky notes web application enabling users to create, edit, and delete notes in real time.
- Architected modular React components to improve scalability, maintainability, and code reusability.
- Optimized application performance using efficient state management with React Hooks.

Certifications

- NPTEL Certification in Cyber Security.

Achievements

- Solved 150+ Data Structures and Algorithms problems on LeetCode.
- Consistently practice problem-solving to strengthen algorithmic thinking and Java proficiency.
